DETAILED ACTION

Applicant's election without traverse of Group I, claims 1-20, in the reply filed on 4/6/05 is acknowledged.

Claims 21-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 4/6/05.

This application is in condition for allowance except for the following formal matters:

Specification

The abstract of the disclosure is objected to because on the last line after the paragraph, "(Fig. 1)" should be deleted. Correction is required. See MPEP § 608.01(b).

Claim Objections

Claims 2-12 are objected to because of the following informalities:

As to claim 2, line 8, "the thermal capacity per unit surface area" lacks antecedent basis.

As to claim 3, line 8, "the thermal capacity per unit surface area" lacks antecedent basis.

As to claim 6, line 13, "the thermal capacity per unit surface area" lacks antecedent basis.

As to claim 8, line 8, "the thermal capacity per unit surface area" lacks antecedent basis.

As to claim 11, line 2, "the temperature" lacks antecedent basis.

As to claim 11, line 3, "the melting point" lacks antecedent basis.

Appropriate correction is required.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance of claims 1-20 is the inclusion of a heating means or step of heating a primarily transferred toner image that has not been secondarily transferred yet; and a secondary transfer means or the step of transferring and fixes the primarily transferred toner image on the recording medium while cooling the intermediate transfer medium. This is found in all of claims 1-20, but not disclosed nor suggested by the prior art of record.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nakashima et al. (220), Verluyten et al. (771), Shinjo (731), Arai et al. (927), Miwa et al. (825), and Yamaguchi et al. (721) disclose art in intermediate transfer devices.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
